

arabic-templates

A collection of 91 Arabic/RTL LaTeX templates

arabic-latex-templates contributors

Version 1.0.0 August 6, 2026

Abstract

The **arabic-templates** package is a collection of 91 Arabic/RTL LaTeX templates organized into 10 categories: Academic & Research, Business & Legal, Project Management, Education & Personal, Presentations, Letters & Correspondence, Finance & Accounting, Marketing & Communications, Personal & Life, and Technical & Engineering. All templates use XeLaTeX with the Amiri font and **polyglossia**/**bidir** for full right-to-left Arabic typesetting with mixed English support.

1 Requirements

- **Compiler:** XeLaTeX (required for **fontspec** and **bidir**)
- **Font:** Amiri (**Amiri-Regular.ttf**) — available in TeX Live and MiKTeX
- **Packages:** **polyglossia**, **bidir**, **fontspec**, and standard packages (**graphicx**, **booktabs**, **tabularx**, **tcolorbox**, **tikz**, etc.)

2 Usage

Each template is self-contained in its own directory under **templates/**. To use a template:

1. Navigate to the desired template directory, e.g. **templates/Academic_and_Research/thesis_template/**
2. Compile with XeLaTeX (run twice for TOC and references):

```
xelatex main.tex
xelatex main.tex
```

3. For templates with a bibliography, also run **bibtex main** between the XeLaTeX runs.

3 Categories

4 License

LaTeX Project Public License v1.3c (LPPL-1.3c).

Category	Count	Examples
Academic_and_Research	19	Article, book, thesis, conference paper, posters
Business_and_Legal	18	Incorporation, business plan, agreements, NDA
Project_Management	20	Charter, Gantt, RACI, risk register, Kanban
